

KAS Supplier Selection Policy

KAS DSA Assistive Technology Supplier Selection Policy

KAS DSA Assessors choose the most cost-effective 3 AT suppliers from the following: Barry Bennett Ltd, MicrolinkPC, Iansyst, Sight and Sound, and Invate. This has been informed by feedback from students over the past seven years.

KAS is an independent DSA assessment centre and we do not have any links with AT Suppliers and/or any software products. Neither our centre nor our DSA assessors benefit financially from our recommendations.

KAS DSA NMH Supplier Selection Policy

KAS DSA Assessors will ensure that priority is given to the location and environment of the NMH provider. One to one delivery in a private room on-campus (or in close proximity) is considered the ideal and this will always be quoted in our reports.

KAS is an independent DSA assessment centre and we do not have any links with the NMH Providers that we recommend. Neither our centre nor our DSA assessors benefit financially from our DSA NMH recommendations.
